

INDEX 1.71

Ultra High Index Your Way

Gives You the Control

Polycore 1.71 lenses are

Available in SFSV

form allowing any lab with the proper tooling to process them in house. Ultimately, this gives you more control over job accuracy and timing.

No more waiting

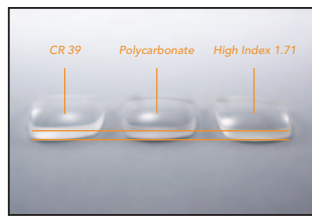

for the manufacturer lab to process it and ship it to you.

You control the add-on processes

If you want AR, mirrors or tints, the choice is yours. The factory applied hard coat will provide a great base for any treatment desired.

Simplifying the Business of Sight

Ultra Thin

Ultra Lightweight

Excellent Optics

No Sacrifice

The Polycore 1.71 is designed with you in mind. With excellent optics and total processing control, the 1.71 gives you everything you want from a high index lens.

Excellent Optics

Polycore 1.71 Ultra High Index lenses allow patients to experience clarity of vision with a higher abbe value (36) than the majority of ultra high index materials.

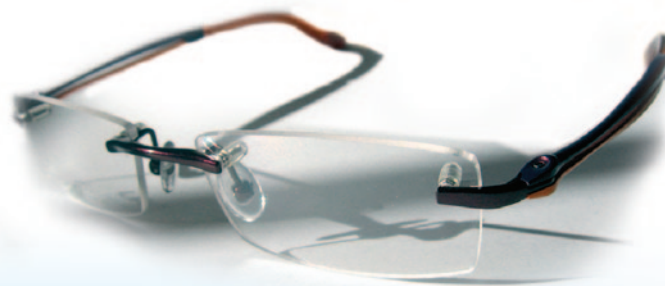

Drills Better

Polycore 1.71 has higher tensile strength than many other ultra high index materials at 52.9 kgf and surpasses conventional plastic and polycarbonate.

UV Safe

Polycore 1.71 lenses block 100% of UVA and UVB rays to give patients premium protection from the sun.

Style	Material	Treatment	Power Range
SFSV	Index 1.71	Hard Coated	Base curves 0.25, 1.50, 2.25, 3.00, 4.50, 5.25, 6.00, 7.00, 7.75, 8.75, 11.00
